**Most people are too busy running their businesses to find time to go through the detailed workings of their pension scheme. They just know it seems to be getting more expensive and more onerous. After all, these days even the pension fund trustees can be held personally liable.**

So, where's the place to get really good advice? What are the ways of reducing your costs? Are you, or your employees, paying too much for the benefits? Or, what's the true cost of having someone on the payroll sick, long term – if you've got no health benefits?

RPG Corporate is set up to help businesses who struggle with problems like these. They act as a proactive counsellor who knows all the angles.

RPG can help you keep up with all the changes, and get you the best value for money.

They work long term with all their clients to make sure that nothing is missed.

And because they are part of the Royce Peeling Green Group, with one the North West's most established firms of Chartered Accountants, RPG Corporate can put specialists from many other disciplines together in one room. To cover issues like tax planning, share protection or partnership protection; or the raising of finance, and the offshore investing of key assets. You'll find RPG are deliberately set up to mirror all the resources you'll need.

They have offices in North Wales, Manchester and London.
