RPG

With you every
step of the way

“RPG is for clients who want to be sure that they are always doing the best for their businesses – big or small, start ups or AIM listed.

Royce Peeling Green is an established firm of chartered accountants and business advisers based in Manchester and London, who have deliberately built a set of services for businesses which mirror what clients need as they progress – and their businesses get more demanding, and they have to move into areas they may not have had to deal with before.

At RPG services follow the clients – not the other way round. That’s why we say, ‘RPG – With You Every Step of the Way’.”

Chris Slater, Chief Executive,
Royce Peeling Green Limited

But what sets RPG apart from the rest?

Hard working support for a business with 100 years of experience – all at sensible, down-to-earth costs.

A firm that is not simply executorial, but looks to build proper, long term relationships: providing consistent care and advice – over years, if necessary.

Clients come to depend on RPG and are never left to fend for themselves when they find they’re in unfamiliar territory.

But what services do you actually get?

Everything you’d expect from a Chartered Accountant – but more.

Audit, tax, payroll, and accounting services.

On top of that, raising finance, looking at acquisitions, steering business opportunities, dealing with the banks, or organising company valuations.

RPG is there to sift the opportunities, and warn of the pitfalls.

But can they help us manage in difficult times?

Yes, they can work out refinancing or acquisition strategies.

Or build for corporate recovery, or business turnarounds.

They can then manage exposures to business risk.

And make sure that the tax liabilities are always kept in view.

What about succession and exit?

RPG can prepare businesses for sale, and can help find a purchaser, and work on disposals and capital release.

They can even organise a management buy out or a management buy in.

After that, they are there to maximise your personal benefits, whilst minimising the tax burden.

So you can walk away with a proper value for your business for your future domestic needs – all backed with a long term investment strategy for your personal assets.

I understand they’re big in Manchester, so why haven’t I heard of them before?

They’ve been too busy working closely with their clients to spend too much time talking about it!

“RPG. They’ll have it covered.”
